## AUDIO VIDEO RACKS

April 2005

**CORE™** Audio Video Racks, from Cambre Products of Canada, will be officially launched at the High End Show in Munich May 5th - 8th, 2005. They will be on display at the M.O.C. stand 3A.13.

The **CORE™** Audio Video racks are the 3rd in a series of racks offered by Cambre Products of Canada. **CORE™** racks are priced above the **Entre™** Series and **Timbre™** Series of Audio Video racks.

**CORE™** is a true Hi-Fi Rack. It offers a higher quality wood veneers which are personally hand picked at the lumber mills in Southern Ontario. **CORE™** also incorporates solid aluminum rods (Titanium rods are also available for these models) for the upright columns, and a wider footprint to accommodate larger Hi-Fi components. We are especially pleased about the design of the spiked foot which allow easy leveling of the rack by hand, and in some cases with equipment already on the rack.

Individual **CORE™** Shelve Kits can be ordered with a selection of rod heights of 18cm (7"), 23cm (9"), and 28cm (11"). The upright rods used in a **CORE™** are made of solidaluminum providing a more efficient dissipation of vibrations, and a more stable platform. A Top Shelve Kit must also be ordered along with the above mentioned individual shelve kits to complete the rack (The Top Shelve Kit also contains all the hardware for it to serve as an Amp Stand) . This allows a custom rack to be built to customer specifications.

**CORE™** Audio/Video Racks incorporate patent pending Resonance Control Channels on the under-sides of each shelve. The channels eliminate large standing waves between the shelves. Large standing waves are eliminated by spreading out the number of frequencies that exhibit resonance. As a result more music is produced without the 'muddying' of the sound caused by large resonances.

The **CORE™** Shelve kits have the following costs:

<b>CORE™</b>	18 cm (7") Shelve Kit	200 Euro
<b>CORE™</b>	23 cm (9") Shelve Kit	225 Euro
<b>CORE™</b>	28 cm (11") Shelve Kit	250 Euro
<b>CORE™</b>	Top Shelve Kit (Amp Stand)	225 Euro

**Available Wood Colour:**

- Maple
- Cherry
- Rosewood
- Black Ash
- Walnut
- Glass - Clear
